

CUSTOM ORDER Notice

Product:

Model Name:	Model Number:
NLT	xx6313-xxx-xM
NLI	xx6396-xxx-xM

Purpose: In the PC marketplace, changes in technology and obsolescence of components dictate the life cycle of products. Unfortunately, this forces Trenton into providing our customers with end of life “custom order” notices. When such cases arise, we offer our customers the most flexible and supportive options in hopes of sustaining the longevity of their product. We understand the importance of this board to your product line and will make every effort to fulfill your requirements.

Description: Review the following options and submit your requirements to your Account Manager. All orders are subject to product availability.

Option 1 – Current Inventory Availability:
Based on current inventory availability, issue a non-cancelable, non-refundable purchase order for a quantity of boards with scheduled deliveries. All deliveries must be completed within 12 months of purchase order date. Inventory is based on a first-come/first-serve method. Please contact your Account Manager to discuss product availability and an updated price quotation.

Option 2 – “Custom” order:
Issue a non-cancelable, non-refundable purchase order with scheduled deliveries for your required quantity. All deliveries must be completed within 12 months of purchase order date. Normal delivery for the first shipment could be 8-10 weeks ARO. Please contact your Account Manager for a “custom order” product price quotation.

Replacement: Trenton continues to offer a complete product line of Single Board Computers, Backplanes, and System solutions for your applications. Visit our web site for complete product details: www.TrentonTechnology.com.

Call your Account Manager to discuss the best option for your requirement.

Thank you,

TRENTON
